CONSENT FOR TREATMENT

I authorize the doctor and designated team members to gather the information necessary to make a thorough diagnosis of my dental needs. In general, diagnostics include radiographs, study models, periodontal measurements, photographs and/or other aids deemed appropriate by the doctor to make an accurate diagnosis. Radiographs are required to complete your examination, diagnosis, and treatment plan.

I understand there are risks involved in receiving dental treatment, as well as risks involved in choosing not to obtain the treatment recommended. I understand that I can ask for a complete recital of any possible complications.

The treatment specifically recommended for you will be explained to you in detail. It can include, but is not limited to, the following:

- Dental Cleanings (above the gum line)
- Periodontal Treatment (below the gum line)
- Fillings
- Crowns, Bridges, Veneers
- Implants
- Tooth Extractions
- Orthodontics
- Root Canal Therapy
- Temporomandibular Joint Dysfunction
- Sleep Apnea

I understand during treatment, it may be necessary to change and/or add procedures because of conditions found while working on the teeth that were not discovered during examination. Upon my consent, I give my permission to make any changes and additions as necessary.

I understand that I have the right to choose on the basis of adequate information, from alternative treatment plans that meet the doctor's professional standard of care. It is important to provide your dentist with an accurate medical history before, during, and after treatment. It is equally important to follow your dentist's advice and recommendations regarding medication, pre- and post-treatment instructions, referrals to other dentists or specialists, and return for scheduled follow-up appointments. If you fail to follow the advice of your dentist, you may increase the chances of a poor outcome.

I agree to be responsible for payment of all services rendered on my behalf or my dependents. I have read each paragraph above and consent to recommended treatment as needed.
